

Test plan :Sauce Demo.

1. Objective

The objective of this test plan is to validate the main functionalities of the SauceDemo web application and ensure that the system works correctly according to the expected behavior.

2. Scope

The testing will cover the following functionalities:

- Login functionality
- Product management (view, select, sort)
- Cart functionality (add, remove, view items)

3. Test Types

The following types of testing will be performed:

- Functional Testing
- Manual Testing
- UI Testing
- Validation Testing

4. Test Environment

- Browser: Google Chrome
- Operating System: Windows

5. Test Approach

Manual testing will be performed by executing predefined test cases.
Test scenarios will be designed to cover both positive and negative cases.
Bugs will be identified, documented, and reported using structured bug reports.

6. Entry Criteria

- Application is accessible
- Test data (valid and invalid credentials) is available
- Test environment is ready

7. Exit Criteria

- All test cases are executed
- All critical and high severity bugs are reported
- Test results are documented

8. Test Deliverables

The following deliverables will be produced:

- Test Plan document
- Test Cases document
- Bug Reports document

9. Risks

- Limited test coverage due to time constraints
- Possible environment instability
- Dependency on application availability
